

## More info about me

A bit about me and what I do

### Brief biography

Jeremy Pitt began his online foundation as an IT specialist working with Deutsche Telekom AG (Germany) covering system integration and networking. He went on to become Senior Web Developer and Technician for [eCards Media Ltd](#) <sup>[1]</sup> (UK), where he gained invaluable web development knowledge and skills. His responsibilities included campaign management, website development, SEO, online marketing and technical support. During his time there, he acquired valuable business skills which were further developed through a Foundation Degree in Business by the University of Plymouth.

In mid 2008 he joined [Precinct](#) <sup>[2]</sup> Ltd (AUS), a Sydney based graphic design studio and member of the Photon Group as an Online Developer.

Jeremy oversees the production and architecture of all websites and Rich Internet Applications. He has successfully helped raise the bar with Precinct's approach to all web development.

### My résumé

Please contact me and I will provide you with a link to my online résumé on Google Docs.
