

Frontpage

Welcome, my name is Jeremy.

“I Breathe Life Into Design”

I am the Web developer who goes that extra mile for your projects.
Interested in hiring me? [Contact me here](#) [1].

•

Development

HTML, CSS, PHP, AS3, JS
Drupal, JQuery, Joomla & more

My development skills cover a wide range of programming languages and open source frameworks. From simple websites to advanced projects I can help from start to finish.

•

Web design

Adobe Flash, Illustrator & Photoshop, 3D Studio Max

With years of commercial experience using Adobe products I can help from producing content to designing complete websites.

•

Online marketing

SEO, Email marketing, Lead generation

I can support you with the implementation and maintenance of SEO, SEM, email marketing & general lead generation.

•

Consulting

From start to finish & beyond

I offer consultation on an hourly basis. This can be from scoping out a new project, redeveloping an existing website or simply providing professional advice.

This is what employers say about me

“Jeremy is a very skilled and able web developer and designer. ... He is an asset to any company and I am happy to give my full recommendation to anyone...”

Sam Heaton,
Managing Director of eCards.co.uk

“... he was only with us for a short time but he was self motivated, full of great suggestions and tips, attentive to detail and fitted in really well with the team.”

Sally Howes,
Production Manager at Fairfax Digital

This website is fully compliant with the W3C standards and [validates for XHTML Version 1](#) and [CSS Version 2](#).

If you do experience any display problems please feel free to [contact me](#).
